Placement Rate = (F + R)/(G-U)

F = Graduates placed in their field of training

R* = Graduates placed in a related field of training

G = Total graduates

U = Graduates unavailable for placement**

***Related field refers to a position wherein the majority of the graduate's job functions require the use of skills and knowledge acquired through successful completion of the training program.**

****Unavailable is defined only as documented: health-related issues, military obligations, incarceration, continuing education status, or death.**

Important Note: graduates pending required credentialing/licensure in a regulated profession required to work in the field and, thus, not employed or not working in a related field as defined above, should be reported through back-up information required in the Annual Report. This fact will then be taken into consideration if the program placement rate falls below expectations and an Action Plan is required by ABHES.
