**Placement Rate = (F + R)/(G-U)**

**F = Graduates placed in their field of training**

**R\* = Graduates placed in a related field of training**

**G = Total graduates**

**U\*\* = Graduates unavailable for placement**

**\*Related field refers to a position wherein the majority of the graduate's job functions require the use of skills and knowledge acquired through successful completion of the training program.**

**\*\*Unavailable is defined only as documented: health-related issues, military obligations, incarceration, continuing education status, or death.**

**Important Note: graduates pending required credentialing/licensure in a regulated profession required to work in the field and, thus, not employed or not working in a related field as defined above, should be reported through back-up information required in the Annual Report. This fact will then be taken into consideration if the program placement rate falls below expectations and an Action Plan is required by ABHES.**
