Rates are calculated using guidelines put forth by our accrediting agency, the Accrediting Bureau of Health Education Schools, [www.abhes.org](http://www.abhes.org)

The retention rate is determined by using the ABHES required method of calculation, for the reporting period July 1 through June 30, as follows:

$$\text{Retention Rate} = \frac{(EE + G)}{(BE + NS + RE)}$$

EE = Ending Enrollment (Number of students in class, on clinical experience and/or leave of absence on June 30)

G = Graduates

BE = Beginning Enrollment (Number of students in class, on clinical experience and/or leave of absence on July 1)

NS = New Starts

RE = Re-Entries (Number of students that re-enter into school who dropped from a previous annual report time period)

The credentialing pass rate is determined by using the ABHES required method of calculation, for the reporting period July 1 through June 30, as follows:

$$\text{Examination Pass Rate} = \frac{GP}{GT}$$

GP = Graduates passing examination (any attempt)

GT = Total graduates taking examination

The placement rate is determined by using the ABHES required method of calculation, for the reporting period July 1 through June 30, as follows:

$$\text{Placement Rate} = \frac{P}{(G-U)}$$

P = Placed graduates

G = Total graduates

U = Graduates unavailable for placement

**Placed graduates** are defined as those employed in a position wherein the majority of the graduate's job functions are related to the skills and knowledge acquired through successful completion of the training program.

**Unavailable** is defined only as documented: health-related issues, military obligations, incarceration, continuing education status, or death.

Institutions must have on file additional documentation and rationale to justify graduates identified in this category. Examples of documentation may include but is not limited to a doctor's note, military orders, arrest documentation, enrollment agreement, acceptance letter, or death certificate.
